> Hello Neighbor!

> Colorado Blvd Specific Plan Amendment Process: Next Steps

>

> Tomorrow night, Wednesday, November 19, please attend a meeting at the Center for the Arts Eagle Rock, 2225 Colorado Boulevard, held by the City of L.A. Planning Department. The purpose of the meeting is to take public input on the proposed change to the Colorado Boulevard Specific Plan, that would eliminate the ban on businesses that operate between 9pm and 7am, and would subject Colorado Boulevard to the same operating-hours rules that apply to the rest of the City.

>

> The meeting will begin with an informal Open House and Question & Answer session at 6pm, and then the public hearing will begin at 7pm. The ERNC will be there, and we hope you will, too.

>

> What is this all about? If you've been paying attention to the saga of the Specific Plan over the past months, you know that after consulting local groups like the ERNC, Councilmember José Huizar fast-tracked an amendment to the Specific Plan to eliminate the operating hours prohibition. After a previous public meeting in Eagle Rock, a City Council motion was passed that authorized the Planning Department to change the ordinance, and now that process is going forward with this new hearing.

>

> Note that the ERNC has already voted to support the change. Our vote reflected the overwhelming (but not unanimous) support we saw and heard from the community for elimination of the operating

hours clause. But we also approve of the onus the change puts on citizens to take responsibility for their neighborhood.

>

> By eliminating the operating hours ban, which has discouraged new businesses from opening, the prosperity of Colorado Boulevard will continue to grow. Twenty-two years ago, when the Specific Plan was written, the ban on opening past 9pm was a response to businesses who were seen as bad neighbors on a commercial strip that abutted single-family housing stock. Today, we still have that commercial strip, and we still have those single family houses. The residents of those houses (and apartments) want peace and quiet -- or at least as much as the 2nd largest city in America can provide. They also want businesses on Colorado to flourish. To accomplish both, residents are going to have to become more involved in the decisions that affect them, rather than relying on a poorly conceived (and largely ignored) statute to protect them. The increased civic engagement that will result from the change can only be a good thing for Eagle Rock.
